Dear Sir/Madam,

My name is Alexander Wilon, I am the Principal of Safecity Training Academy Open Learning Distance Education Network. **This is an opportunity for both individuals and companies to gain a worthwhile qualification.**

This letter and brochure will explain how you can achieve the Nationally Recognised Government Accredited **Certificate IV in Assessment and Workplace Training** qualification by open learning distance education.

Managers, have you had to pay for the services of an external trainer to deliver courses to your employees? Now you have the opportunity to qualify your own staff members to deliver in-house training without them taking time off work to gain their certificate.

Let's face it, most people **do not have the time to attend classes and prepare homework at set times.** Many of us are too busy earning a living and sharing family chores to enrol in vocational courses. So, we miss out on further education and training, and never get the opportunities and personal satisfaction that come with higher qualifications.

Now you have the opportunity to get nationally accredited qualifications while studying at home. You will learn with ease and study at your own pace. **Study in the comfort of your home--prepare assignments when it suits you.**

When you enrol in your open learning distance education course, you will use clear and easy- to-learn training materials. A network staff member will always be there to answer your questions via telephone, standard mail or E-mail.

If you always wanted to achieve new qualifications--but could never find the time to enrol in traditional classes, or if you found the idea of going back to studying a little intimidating, Safecity Training Academy is the right place to start. **If you are an experienced trainer, and need formal recognition, take our pre-training self-assessment activity on line!** This free, confidential service is not a formal assessment; but it will help you determine whether you qualify for recognition. Visit www.workplacetrainer.com for details

The Certificate IV in Assessment and Workplace Training is a Nationally Recognised Qualification which has become the required standard for trainers and assessors in the workplace. This qualification will bring you personal satisfaction and a feeling of achievement--and, who knows, it may even bring a better job or promotion! Why procrastinate? Enrol in a course today--no waiting times! Your course starts when you choose.

The Certificate IV in Assessment and Workplace Training comes with Safecity's unconditional guarantee. If you are not happy with the quality of our program or training material, return the training material in good order within 14 days of receipt and the Academy will refund your course fees--no questions asked.

I encourage you to take the first step, and begin your journey to new qualifications and the satisfaction of achievement. You can do it, and we'll help you prove it!

Alexander Wilon JP PhD
Principal

PS: Please make a copy of this letter and brochure and pass it on to a colleague, friend or family member. Home study helps people build their self-esteem and gives them immense satisfaction. You can also download a copy at www.openlearningnet.com/kit.zip
